

Good Afternoon,

Firstly I just want to thank Beyond Disability for their donation of 3 laptops.

These laptops will be very useful to our Out of School Hours Service in many different ways. One way will be in helping our senior students to complete their homework whilst they are attending the service. Our homework club is a big relief for parents, as it ensures their children are doing their homework and getting adequate support whilst completing it. The laptop will allow our senior students to complete their homework in a more efficient manner and allow them to learn new I.T skills at the same time.

Another way in which the devices will be utilised is in our calm down space as well as our rest and recover time. Some of the children who attend our service have behavioural issues and these devices will be utilised in their calm down kits as something that can be used in a quiet space and all them to re-enter the green.

Thanks again for the donation of the devices, we are extremely grateful for the support from Beyond Disability. Kind Regards,

big[®]
